Myanmar Koei International is seeking **BIM Modeler** to join its **Architecture, BIM/CIM and Digital Services Team**.

Job Title: **BIM Modeler**

Join our team:

Our team invites you who would like to make an impact on diverse and challenging projects.

As a BIM modeler at our company, you will be able to participate in:

- The chance to work on challenging and rewarding projects.
- Conducting research on innovative digital technologies related to BIM/CIM.
- On-the-job training to further develop BIM/CIM/DX expertise.
- A collaborative and supportive work environment.

Job Description:

- Develop Building Information Models based on the LOD, and other essential models to support design, planning, and construction engineering initiatives.
- Develop accurate 3D digital models and 4D BIM using multiple BIM software applications and support Virtual Design Construction processes (AR/VR).
- Create 3D models of buildings and infrastructure using Revit, AutoCAD, Sketch up etc.
- Import and export data from various sources, such as CAD files, and survey data.
- Collaborate with engineers, designers, and project managers to ensure project success.
- Stay up to date with the latest industry trends and software advancements.

Skills and knowledge:

- Bachelor's degree in Architecture and Civil Engineering.
- Demonstrated understanding of the BIM process and engineering drawing skills.
- Strong proficiency in Revit & Navisworks.
- Experience with BIM LOD and standards.
- Familiarity with other software and tools like Dynamo, SketchUp
- Experience with topography & Massing.
- Excellent problem-solving and analytical skills.
- Attention to detail and accuracy.
- Ability to work independently and as part of a team.
- Good communication and interpersonal skills.

Other Requirements:

- 2~5 years of experience in Civil Engineering or relevant fields.

Dead line of application: **14 November 2024**
Joining date: **As soon as possible**
Please send your application and updated CV to **recruitment@myanmar-koei.com**.
