

Myanmar Koei International is actively looking for a Design Engineer (Civil) to join our dynamic engineering department. This role involves collaborating closely with our infrastructure team.

Job Title: **Design Engineer (Civil)**

Job Descriptions

- Designing the assigned structure of related projects such as roads, sidewalks, retaining walls, and other infrastructures.
- Review the existing or related civil design.
- Prepare design drawings and design reports.
- Support in creating BOQ of the designed items.
- Japanese design standards and materials specifications shall be applied.

Job Requirements:

- A minimum of a Bachelor's degree in Civil Engineering.
- Previous work experience is strongly preferred.
- Must be confident using various design software such as AutoCAD, SAP2000 & other similar software.
- Must have experience in manual design calculation using the spreadsheet.
- Must have knowledge of interpretation of geotechnical properties from SI reports and design of various foundation types.
- Strong attention to detail and accuracy.
- Ability to multitask and work under pressure.
- Relevant certifications or professional memberships are preferable.

Deadline of application: **21 November 2024**

Joining date: As soon as possible

Please send your application and updated CV to recruitment@myanmar-koei.com.
